

Dear LSC Community:

Fall 2022 is off to a rousing start, with the first three weeks flying by! Surly, we have been in a time machine set on fast forward, because I am so late getting this update out to you.

This year, you will notice many new and exciting projects underway from facilities upgrades, to a shift in our food services, to more communication across the college. For example, we have opened up a new LSC master calendar that includes all events and happenings for staff, students, and faculty. Check it out at: <https://www.lsc.edu/> and scroll down to the link cleverly titled “LSC master calendar.”

One of our facilities upgrades is to our boilers. You may have noticed equipment and materials on the circle drive near the flag. That project will be completed before we get cold, so no worries for this coming winter.

Our food service has shifted temporarily to fresh grab and go items sold at our bookstore. Stay tuned for more development in the coming months as we explore affordable and delicious solutions.

And finally, I want to acknowledge that there are so many good people working so very hard to ensure student success. Every employee at the college is here because of LSC students. They give of their time and energy because they know it means helping students reach their full potential. And that means we encourage our students to do their best and ask for help when they need it: **“Nobody cares if you can’t dance well. Just get up and dance. Great dancers are not great because of their technique, they are great because of their passion.”** — *Martha Graham*

Be passionate about your work, your learning, and your life! Be well.

Patricia L. Rogers, Ph.D.  
President  
Lake Superior College
